

HYALUTIDIN® DC

HYALUTIDIN® DC is a chondroprotector for dogs and cats composed by a high-quality hyaluronic acid and chondroitin sulfate combination (HC-Complex) that helps animals to improve mobility.

HYALUTIDIN® DC lubricates the articular cartilage increasing the viscosity of the synovial fluid and helps to reduce inflammatory condition.

Why HYALUTIDIN® DC is unique

Liquid and palatable

Very easy to administer specially for cats.

Hypoallergenic

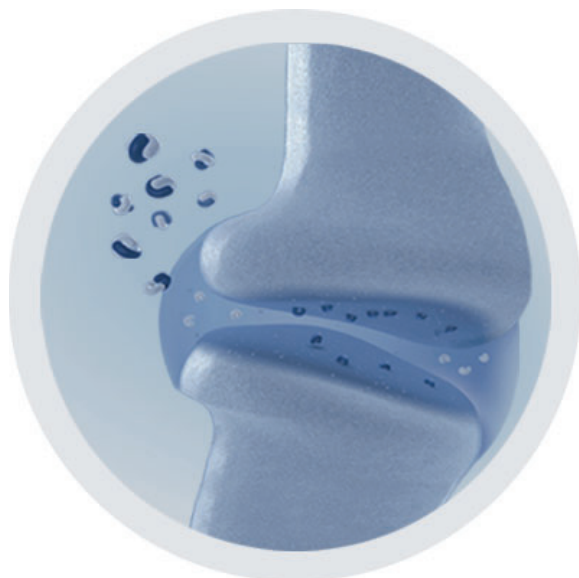

HC-Complex (Hyaluronic acid and Chondroitin sulfate)

Unique composition.

Show visible improvements in 2-3 weeks
